Name Gabriel

Description
Gabriel used to lead Chapter Alpha One. It was the highest rank a Brotherhood field agent could hold. But after the Vancouver Disaster, with most of his team either dead or missing, they stripped him of his command and kicked him out of the only life he'd ever known. Silent Jim found him, cleaned him up, and got him back on track. Together they built a new team from the castoffs that nobody else in the Brotherhood wanted. It's been an uphill battle, but he's willing to do whatever it takes to claw his way back to the top.

Name Jefferson Albrecht

Description
The Albrechts are known around the world as skilled and deadly hunters, and Jefferson Albrecht coasted through the Brotherhood Academy on his family's reputation. He hadn't earned it, but he was given command of an Epsilon Chapter straight out of the academy. It got his team killed. He was the lone survivor of a werewolf attack he should have prevented. He got the antivirals in time to keep him from going full-wolf, but just barely. He hardly recognizes the angry, feral face in the mirror anymore. Unable to trust himself around other people, he retreated to a remote cabin in the forests of Montana until RM showed up to put him back to work. He's not the leader anymore, but he figures it's just a matter of time until Gabriel screws up big enough. All he has to do is wait.

Name Bijou Labeaux

Description
The Brotherhood’s top scientists and mystics have searched for an antidote to the zombie toxin for decades, but the most promising approach to a cure yet came from a civilian. Dr. Bijou Labeaux's doctoral dissertation on the zombie toxin was no less than a revelation, and the Brotherhood set her up with a cushy, state-of-the-art laboratory to continue her research. All that was left was to run her through the basic field combat exercises required of all new recruits. Once Bijou realized how fun field work can be, she became obsessed. Every moment not spent toiling away in the lab was spent petitioning the higher-ups for a promotion to field agent. When Silent Jim showed up, she knew she'd finally made it. Now she's out of the lab and ready to kick some ass.

Name: Rigor Mortis (R.M.)

Description:
She awoke cuffed to a heavy metal table across from an elderly Scottish man with kind eyes and a wry smile. He offered her two things: a glass of synthetic blood, and an opportunity. Come work for the Brotherhood. Use the powers she’d been cursed with to save others from monsters like the vampire who’d turned her. She liked the sound of that. It's been an uphill battle. She hears the things they call her behind her back. Drac. Vlad. Blood-Chugger. Rigor Mortis... Rigor Mortis. She likes that one. Maybe she’ll keep it.

Name Silent Jim

Description
Silent Jim is more archetype than man. Most agents don't like working with him, citing "an ever-present sense of impending doom." But he and Gabriel struck up an instant camaraderie, like they'd known each other for years. Fighting side by side, they're an unstoppable team. Silent Jim was counted among the dead following the Vancouver Disaster. He's since reappeared, giving no explanation for his absence, and nobody else is brave enough to ask about it. Some say it's not the first time he's pulled this resurrection trick. It probably won't be the last, either.

Teleporting Badass: Because I am a teleporting badass, I gain a +2 when I Sneakily defend against somebody who hasn't successfully attacked me in the current conflict.
Name Wolf

Description
Wolf is a war veteran. EVERY war. There hasn't been a battle in recorded history that Wolf hasn't fought in, escalated, or outright started. There's even a cave painting in France that depicts a pretty remarkable likeness of Wolf mowing down Neanderthals with a Gatling gun. The Brotherhood had long hoped to get Wolf signed on full-time, but nobody wanted to work with him. He's not what you'd call a "team player." Only Gabriel was brave foolish and desperate enough to give him a shot.

Name Cipher Mark III

Description
A Cipher is the most important tool in a Hunter’s arsenal. Not just a communication hub, it serves as a conduit to the vast stores of knowledge, history, and lore contained within the Brotherhood Database. And it’s all wrapped up in a titanium chassis driven by synthetic musculature and covered with realistic, damage-resistant artificial skin. The real power is all in the Goggles. In the event that a Cipher’s chassis is destroyed, it can be reinstalled—with memories intact—by attaching the old Goggles to a new chassis. The Mark III Ciphers in particular were famous for their virtually indestructible Goggles. But nobody uses the Mark IIIIs anymore. Not after what happened in Vancouver. And yet every time Gabriel requisitions a new one, they send him one of these obsolete pieces of crap. Someone in the Warehouse has a sick sense of humor.

- **Dangerous Global Interface**: Because I have a dangerous global interface, once per game session I can spend one, two, or three demon dice on behalf of a chapter member I am not in the same location with, and rolls of 1 apply to the chapter member, not me. Instead of going to the DM, I roll these dice again, add them up, and take that many hits.
